Dear John,

Hello and a big thank you to Russ Wolcox for his great, first class, session which I'm sure people got lots of ideas from - as usual the SUFC lads were spot on.

November brings a slightly late "cracker" as we welcome John Peacock who spent 4 years as Academy Director at Derby County before joining the F.A. John is now Head Coach for the England F.A. National Youth teams and brings a wealth of coaching experience and knowledge.

John's theme is "Developing Midfield Players".....this will include technique and technical work involving small practices building up to unopposed/opposed practices and finishing with a SSG. John is the most senior National coach outside the National and Under 21 teams and has assisted in the development and coaching of numerous elite players, who have gone on to achieve full and Under 21 England honours.

A must see session that doesn't come along all that often!!!!!!
